# MEDICAL COORDINATOR

HELLO FROM **Mithsamlanh**

Are you a medical doctor that also enjoys coordination and management work? Up for something new and exciting? Interested in working with teams on the streets&communities and supporting them to implement health services to marginalized children, youth and families?

If you answered 'yeah' to any of the above then you may just be the person we need.

What about these? Think you'd fit?

- You enjoy going out to the street or communities and provide health service to those in need
- You love interacting with a diverse team spread across the Phnom Penh city
- You are excited about coordinating and building a team of medical staff
- You have experience in building partnerships with government organizations and hospitals
- You are comfortable with using a computer and Microsoft Office
- You are passionate about quality work and ensuring high standards of work are being met

We need someone ready to step up in their career and take over an important coordinator role in our team. You will be supporting a team of 7 medical staff that will be collaborating with more than 100 other #EverydayHeroes (Social Workers, Employment Officers, Teachers, Trainers, Admin teams etc.) that provide direct social services to children, youth, their families and their communities across Phnom Penh.

Our innovative projects, year to year, achieve incredible results in protecting children, reintegrating children back into schools and ensuring they are well taken care of by their families. You'll get a chance to be part of a great change as we are looking to expand our network of referral partners and be able to promote good health of all people in the communities that we work in.

Sounds good? Great! Please email your CV and Cover Letter now to [hr@mithsamlanh.org](mailto:hr@mithsamlanh.org) and let's talk more!

All applicants will undergo an extensive background check in compliance with our Child/Beneficiary Protection Policy and PSEA Policy.

Mithsamlanh team
